

Hess Midstream

Investor Relations Presentation

May 2025

Forward-Looking Statements

This presentation contains “forward-looking statements” within the meaning of U.S. federal securities laws. Words such as “anticipate,” “estimate,” “expect,” “forecast,” “guidance,” “could,” “may,” “should,” “would,” “believe,” “intend,” “project,” “plan,” “predict,” “will,” “target,” “imply” and similar expressions identify forward-looking statements, which are not historical in nature. Our forward-looking statements may include, without limitation: our future financial and operational results; our business strategy; our industry; our expected revenues; our future profitability; our maintenance or expansion projects; our projected budget and capital expenditures and the impact of such expenditures on our performance; our ability to deliver ongoing return of capital to our shareholders and future economic and market conditions in the oil and gas industry. Forward-looking statements are based on our current understanding, assessments, estimates and projections of relevant factors and reasonable assumptions about the future. Forward-looking statements are subject to certain known and unknown risks and uncertainties that could cause actual results to differ materially from our historical experience and our current projections or expectations of future results expressed or implied by these forward-looking statements. The following important factors could cause actual results to differ materially from those in our forward-looking statements: the ability of Hess Corporation (“Hess”) and other parties to satisfy their obligations to us, including Hess’ ability to meet its drilling and development plans on a timely basis or at all, its ability to deliver its nominated volumes to us, and the operation of joint ventures that we may not control; our ability to generate sufficient cash flow to pay current and expected levels of distributions; reductions in the volumes of crude oil, natural gas, natural gas liquids (“NGLs”) and produced water we gather, process, terminal or store; the actual volumes we gather, process, terminal or store for Hess in excess of our MVCs and relative to Hess’ nominations; fluctuations in the prices and demand for crude oil, natural gas and NGLs; changes in global economic conditions and the effects of a global economic downturn or inflation on our business and the business of our suppliers, customers, business partners and lenders; our ability to comply with government regulations or make capital expenditures required to maintain compliance, including our ability to obtain or maintain permits necessary for capital projects in a timely manner, if at all, or the revocation or modification of existing permits; our ability to successfully identify, evaluate and timely execute our capital projects, investment opportunities and growth strategies, whether through organic growth or acquisitions; costs or liabilities associated with federal, state and local laws, regulations and governmental actions applicable to our business, including legislation and regulatory initiatives relating to environmental protection and health and safety, such as spills, releases, pipeline integrity and measures to limit greenhouse gas emissions and climate change; our ability to comply with the terms of our credit facility, indebtedness and other financing arrangements, which, if accelerated, we may not be able to repay; reduced demand for our midstream services, including the impact of weather or the availability of the competing third-party midstream gathering, processing and transportation operations; potential disruption or interruption of our business due to catastrophic events, such as accidents, severe weather events, labor disputes, information technology failures, constraints or disruptions and cyber-attacks; any limitations on our ability to access debt or capital markets on terms that we deem acceptable, including as a result of weakness in the oil and gas industry or negative outcomes within commodity and financial markets; liability resulting from litigation; risks and uncertainties associated with Hess’ proposed merger with Chevron Corporation; and other factors described in Item 1A—Risk Factors in our Annual Report on Form 10-K and any additional risks described in our other filings with the Securities and Exchange Commission. As and when made, we believe that our forward-looking statements are reasonable. However, given these risks and uncertainties, caution should be taken not to place undue reliance on any such forward-looking statements since such statements speak only as of the date when made and there can be no assurance that such forward-looking statements will occur and actual results may differ materially from those contained in any forward-looking statement we make. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether because of new information, future events or otherwise.

Non-GAAP Measures

This document includes certain non-GAAP financial measures as defined under SEC Regulation G. A reconciliation of those measures to our most directly comparable financial measures calculated and presented in accordance with GAAP is provided in the appendix to this presentation. Hess Midstream LP (“Hess Midstream” or “HESM”) is unable to project net cash provided by operating activities with a reasonable degree of accuracy because this metric includes the impact of changes in operating assets and liabilities related to the timing of cash receipts and disbursements that may not relate to the period in which the operating activities occur. Therefore, Hess Midstream is unable to provide projected net cash provided by operating activities, or the related reconciliation of projected Adjusted Free Cash Flow to projected net cash provided by operating activities without unreasonable effort. Hess Midstream is unable to project passthrough revenues with a reasonable degree of accuracy. Therefore, Hess Midstream is unable to provide a reconciliation of projected Gross Adjusted EBITDA Margin without unreasonable effort.

Leading Midstream Platform

Delivering Long-Term, Competitive and Resilient Growth

Leading Business Model with Strategic Infrastructure serving Hess⁽¹⁾ and Third Parties

High Quality, Integrated Portfolio With Meaningful Scale

- **Strategic infrastructure assets** providing oil, gas and water midstream services to Hess and third parties
- Significant historical investment drives **growth with limited capex**
- **Hess consistently recognized for sustainability performance; HESM has released annual Sustainability Reports since 2020**

Long-Term Commercial Contracts with Hess

- **Long term commercial contracts⁽²⁾** extending through 2033
- **100% fee-based contracts** minimize commodity price exposure
- **Minimum Volume Commitments** (“MVCs”), set on a three-year rolling basis and currently set through 2027, intended to provide downside risk protection
- **Combination of fixed fee and cost-of-service revenue** supports cash flow stability and growth visibility

Differentiated Cash Flow Stability

- 2025 Adjusted EBITDA⁽³⁾ of \$1,235MM – \$1,285MM
- ~80% of revenues protected by MVCs in 2025
- 2025 Adjusted Free Cash Flow⁽³⁾ of \$735MM – \$785MM

Prioritized Shareholder Returns and Strong Balance Sheet

- Focus on financial strength with conservative 3.0x target leverage
- Continuing to execute our **Return of Capital framework**
- Targeted at least 5% annual DPS⁽⁴⁾ growth
- Greater than \$1.25B of financial flexibility expected through 2027 for **potential incremental share repurchases**

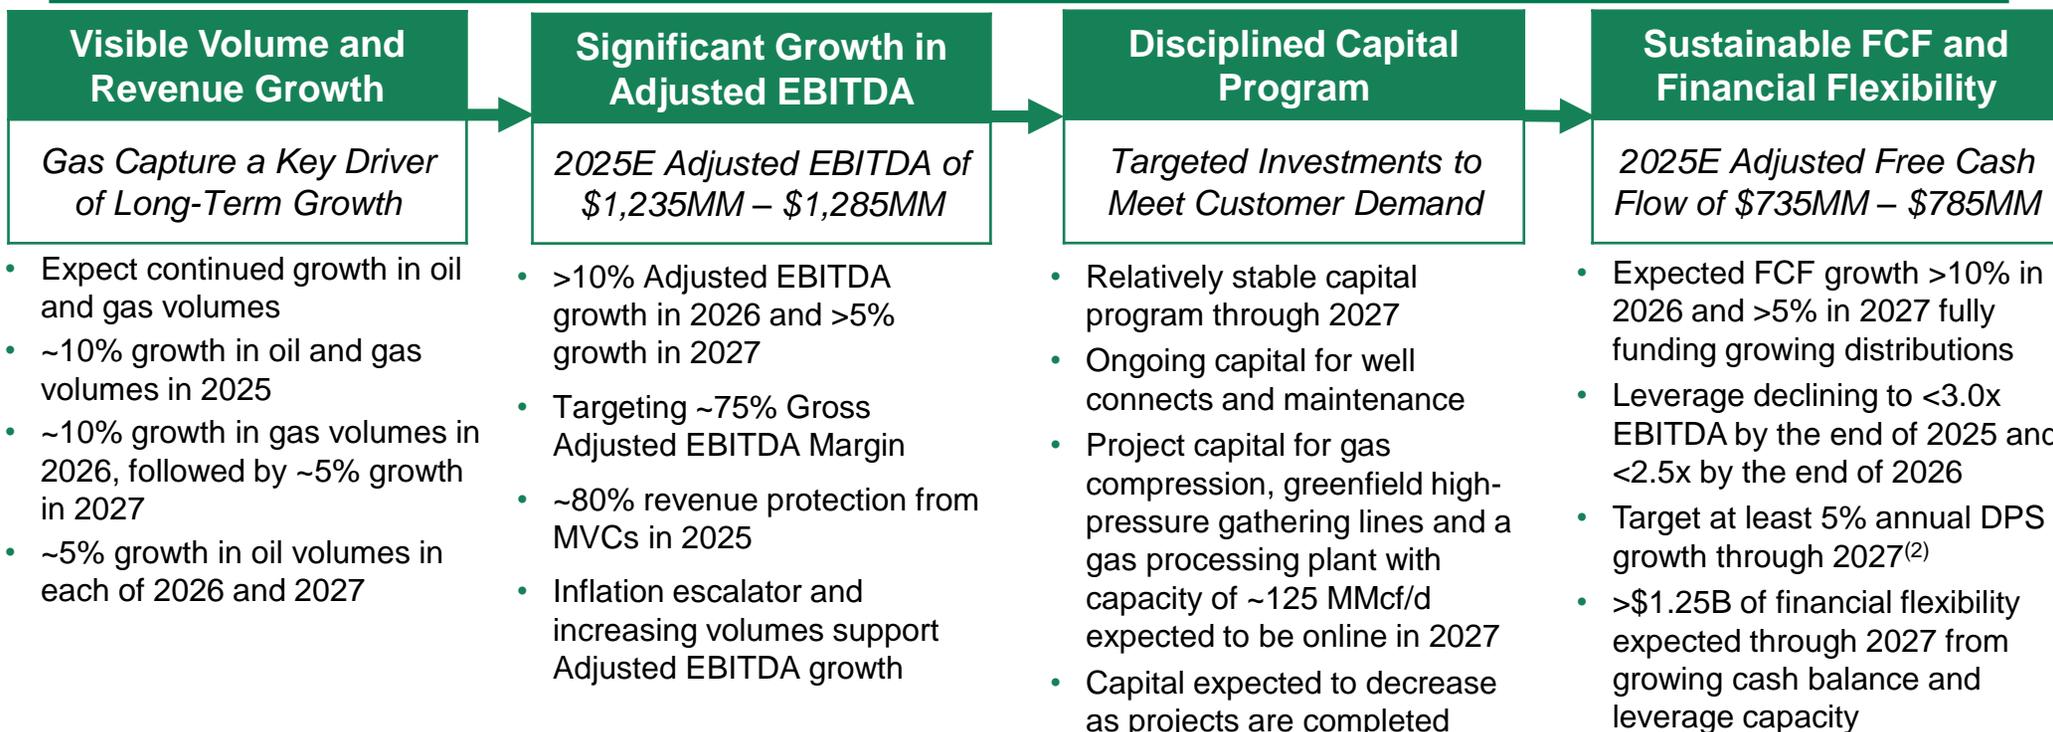

Differentiated Financial Metrics

Growing Adjusted EBITDA • Expanding Adjusted Free Cash Flow • 5% Targeted DPS⁽⁴⁾ Growth

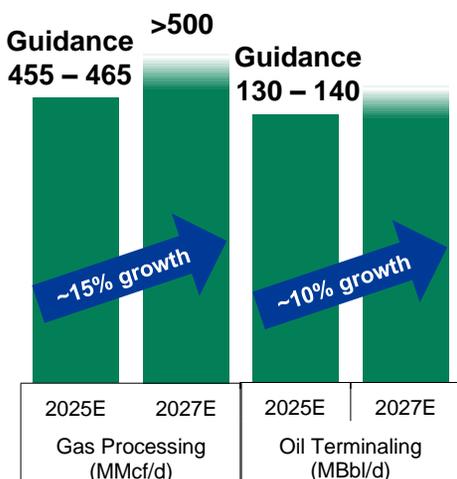

Guidance as of April 2025. (1) Information relating to Hess has been derived from its SEC filings and press releases and has not been independently verified. (2) Oil & Gas commercial contracts were effective as of January 1, 2014. Water services contracts were effective as of January 1, 2019 with a primary cost of service term of 14 years. On December 30, 2020, HESM exercised renewal options to extend the terms of certain crude oil gathering, terminaling, storage, gas processing and gas gathering commercial agreements with Hess for the Secondary Term through December 31, 2033. Terminals have no unilateral right to extend. Commercial contract for initial term of one gas gathering subsystem expires December 31, 2028 with unilateral 5-year renewal right. (3) See appendix for definition of Adjusted EBITDA and Adjusted Free Cash Flow. (4) Distribution per Class A Share through at least 2027.

Leading Midstream Attributes

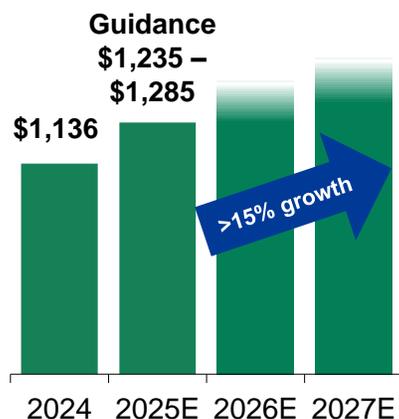

Visible Long-Term Growth, Sustainable Cash Flow

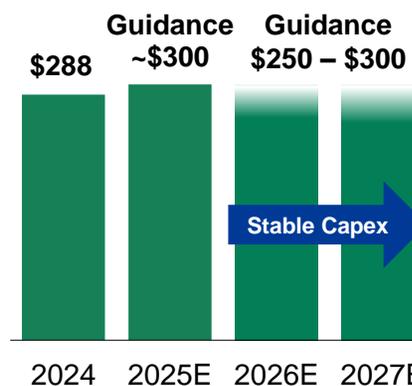

Volumes

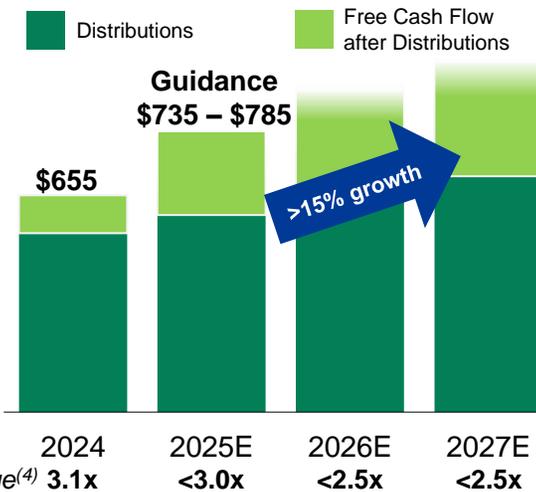

Adjusted EBITDA⁽¹⁾ (\$MM)

Capex (\$MM)

Adjusted Free Cash Flow⁽³⁾ (\$MM)

Guidance as of April 2025. (1) See appendix for definition of Adjusted EBITDA and a reconciliation to GAAP financial measures. (2) Targeted at least 5% annual DPS growth per Class A Share through 2027. (3) See appendix for definition of Adjusted Free Cash Flow and a reconciliation to GAAP financial measures. (4) Debt / Adjusted EBITDA leverage on TTM basis.

Return of Capital to Shareholders Framework

Committed to Consistent & Ongoing Return of Capital

1 Growing Base Distribution

- ✓ Target at least 5% annual DPS growth through at least 2027⁽¹⁾
- ✓ Distributions fully funded from Adjusted Free Cash Flow

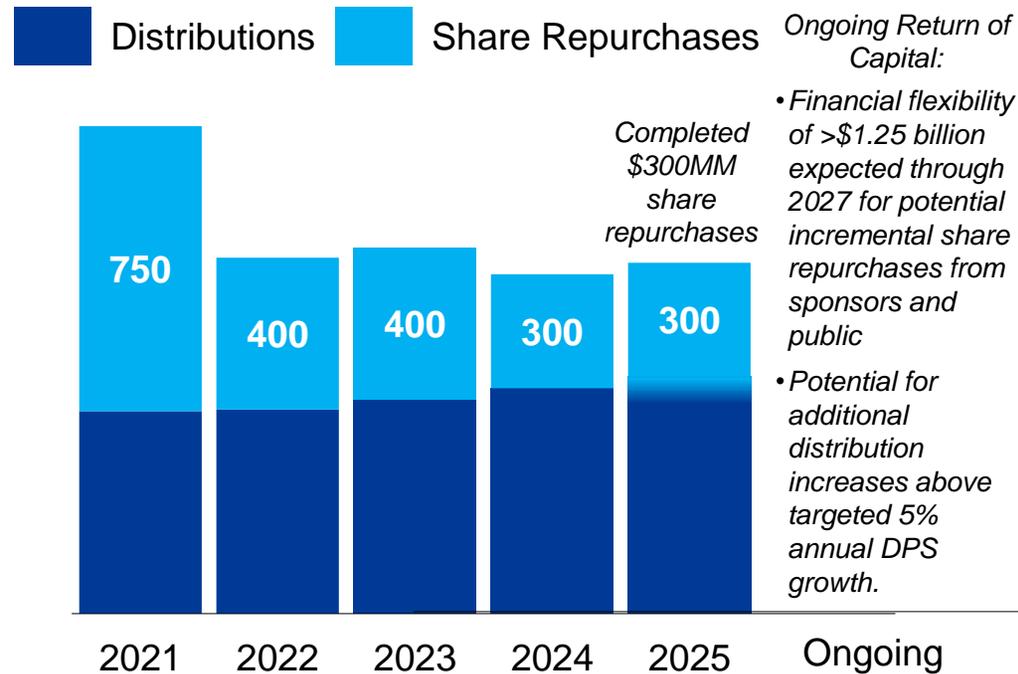

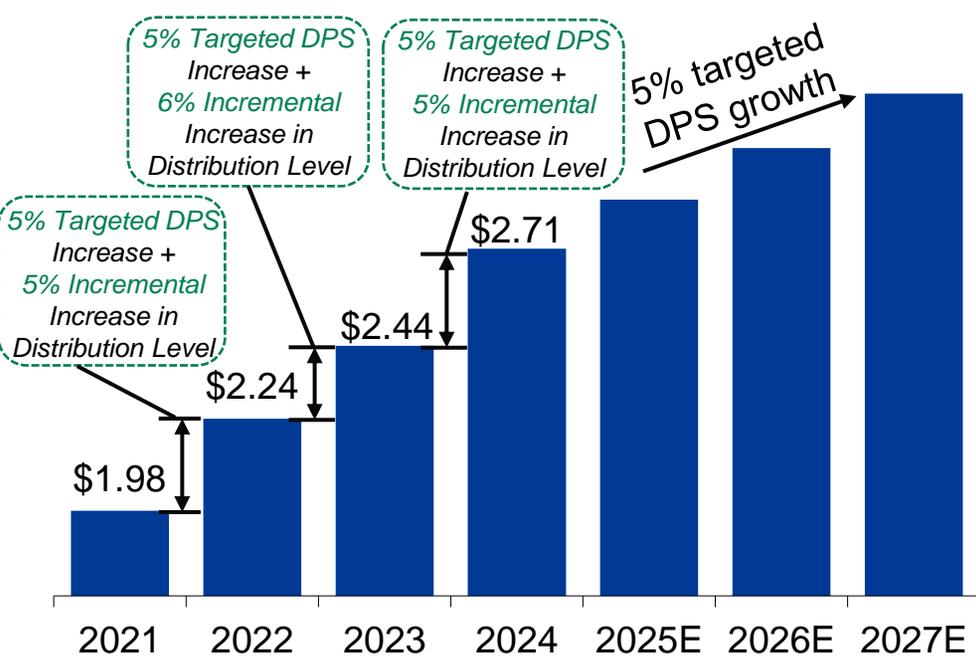

2 Incremental Return of Capital

- ✓ Share repurchases and / or additional distribution increases
- ✓ Funded by leverage capacity below 3x Adjusted EBITDA target and excess Adjusted Free Cash Flow after distributions

Increased DPS by ~57%⁽²⁾ and completed an aggregate of \$2.15B share repurchases since 2021

Ongoing Targeted DPS Increases (\$/share)⁽³⁾

Significant Total Return of Capital (\$MM)

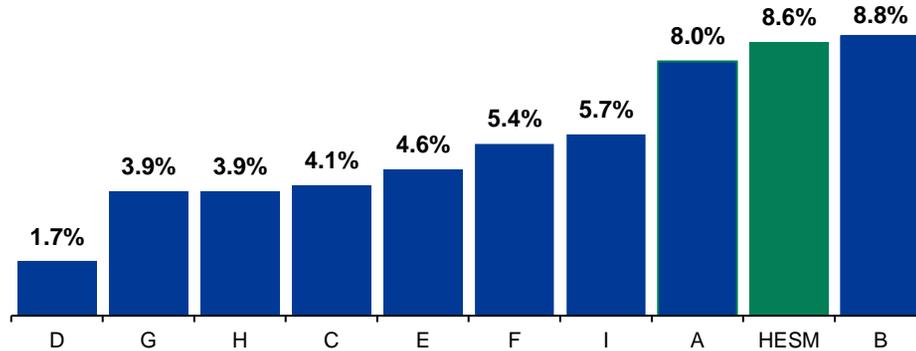

Ongoing Return of Capital:

- Financial flexibility of >\$1.25 billion expected through 2027 for potential incremental share repurchases from sponsors and public
- Potential for additional distribution increases above targeted 5% annual DPS growth.

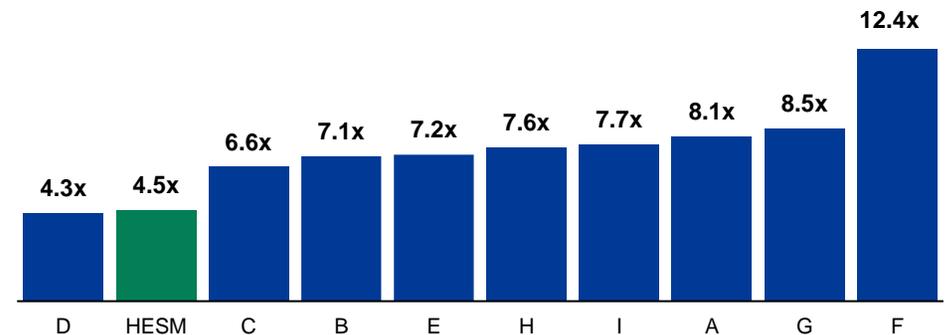

(1) Guidance as of April 2025. (2) Q1'25 distributions per share compared to Q1'21 distributions per share. (3) 2025E, 2026E & 2027E based on targeted 5% annual DPS growth (4) Debt / Adjusted EBITDA leverage on TTM basis. 2025 year-end estimate. See appendix for reconciliation to GAAP financial measures.

Differentiated Financial Metrics Compared to Wide Range of Peers¹

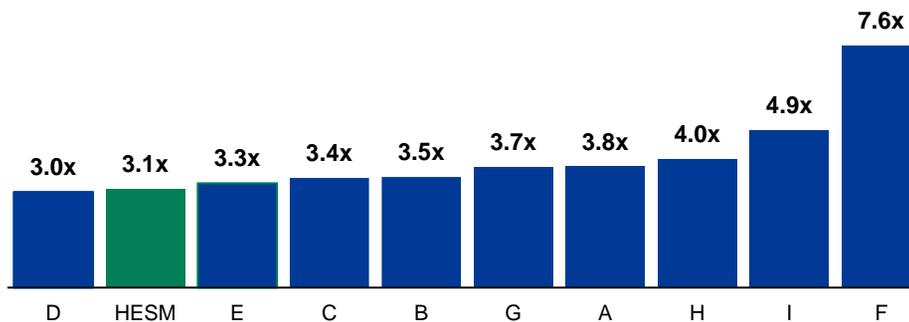

Adjusted EBITDA CAGR 2024 – 2027E

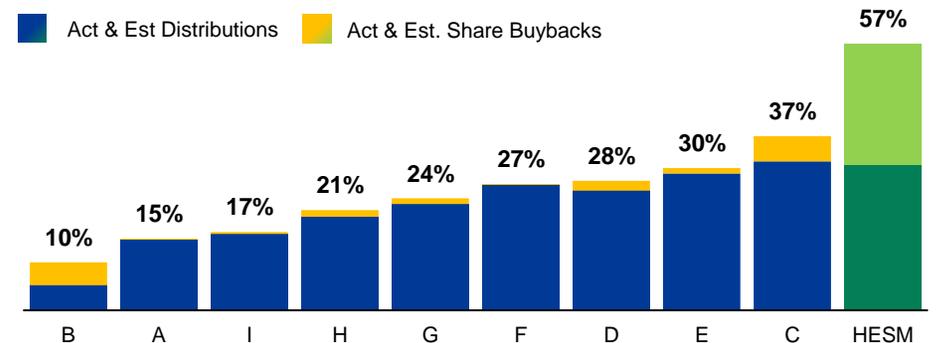

2024 Adjusted EBITDA Build Multiple⁽²⁾

2024 Debt / 2024 Adjusted EBITDA

Cash Return by Company⁽³⁾ 2021 – 2025E

Unique combination of:

- ✓ **Leading Growth**
- ✓ **Balance Sheet Strength**
- ✓ **Leading Shareholder Cash Returns**
- ✓ **Best-in-Class Contract Structure**
- ✓ **Differentiated Cash Flow Stability**
- ✓ **Sustainable Distribution Growth**

Stable, Growing Cash Flow

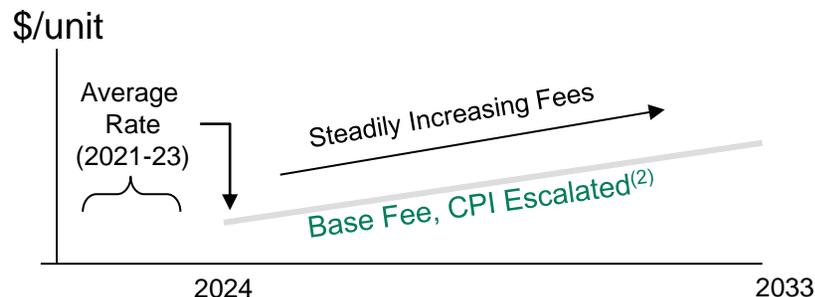

Long-Term Commercial Contracts with Hess through 2033

100% Fee-Based Contracts⁽¹⁾

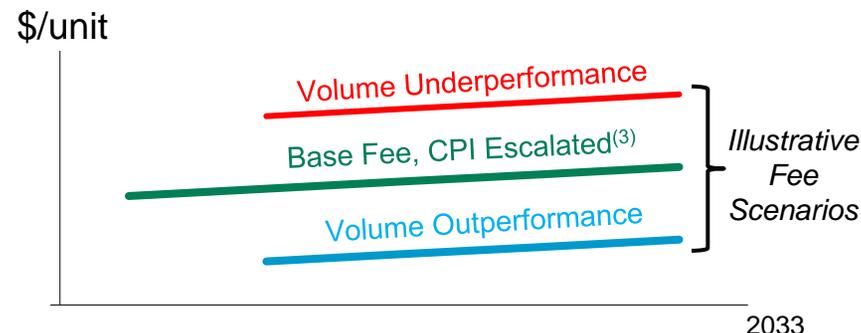

No direct commodity price exposure with inflation escalation

Fixed Fee: ~85% of Revenues

- ✓ Initial fee set at average rate for period 2021-23 on a 2023 basis, escalated at CPI⁽²⁾
- ✓ Fees cannot be changed or reduced once set

Cost of Service: ~15% of Revenues

- ✓ Fees recalculated annually for all forward years to maintain contractual return on capital deployed
- ✓ Fee recalculation based on actual and forecast volumes, capex and opex
- ✓ Applies to water gathering and terminaling agreements through 2033 and certain gas gathering agreements through 2028

Minimum Volume Commitments

Provide downside protection and three year forward visibility

- ✓ MVCs⁽⁴⁾ apply at 80% of nomination on 3-year forward basis
- ✓ Set on rolling 3-year forward basis (send or pay)
- ✓ Applies through full term of contract through 2033
- ✓ Cannot be adjusted downwards once set

MVCs	2025	2026	2027 ⁽⁵⁾
Gas Gathering (MMcf/d)	382	418	418
Oil Gathering (MBbl/d)	103	110	112
Gas Processing (MMcf/d)	364	396	404
Crude Terminaling (MBbl/d)	111	118	124
Water Gathering (MBbl/d)	104	102	98

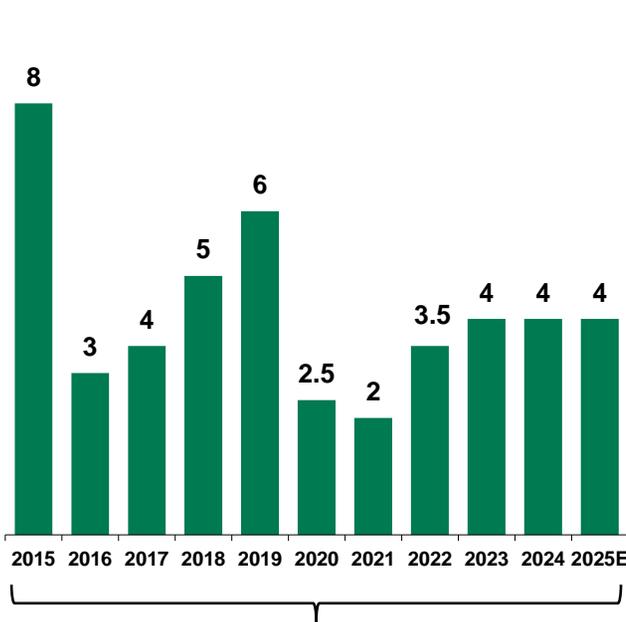

(1) Oil & Gas commercial contracts were effective as of January 1, 2014. Water services contracts were effective as of January 1, 2019 with a primary cost of service term of 14 years. On December 30, 2020, HESM exercised renewal options to extend the terms of certain crude oil gathering, terminaling, storage, gas processing and gas gathering commercial agreements with Hess for the Secondary Term through December 31, 2033. Terminals have no unilateral right to extend. Commercial contract for initial term of one gas gathering subsystem expires December 31, 2028 with unilateral 5-year renewal right. (2) Average rate for period 2021-2023 on a 2023 inflation adjusted basis; CPI escalation is capped at 3% annually. (3) CPI escalation is capped at 3% annually. (4) In the secondary term, MVCs are subject to a shortfall credit and there will be a timing difference between when MVC payments are received and when revenue is recognized, and volumes may be supplemented as HESM potentially sources additional volumes produced by third parties. MVCs set at year end 2024. (5) 2027 gas MVCs include the impact of planned regulatory inspections and maintenance at the Tioga Gas Plant.

Established Track Record

Demonstrated Effectiveness of Long-Term Commercial Contracts

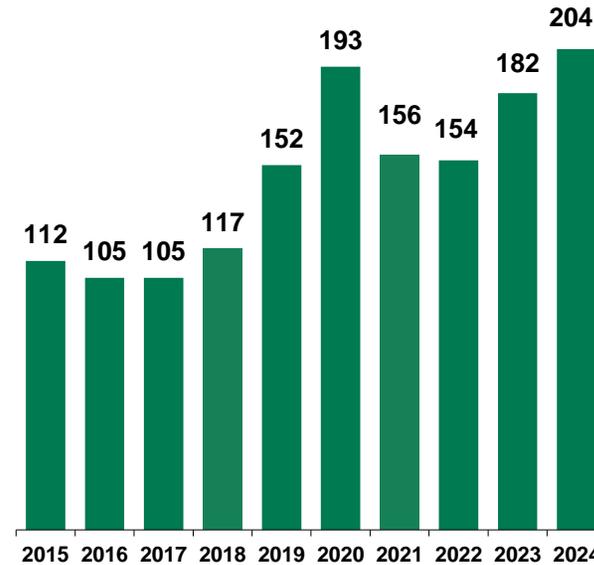

Hess Bakken Operated Rig Count⁽¹⁾

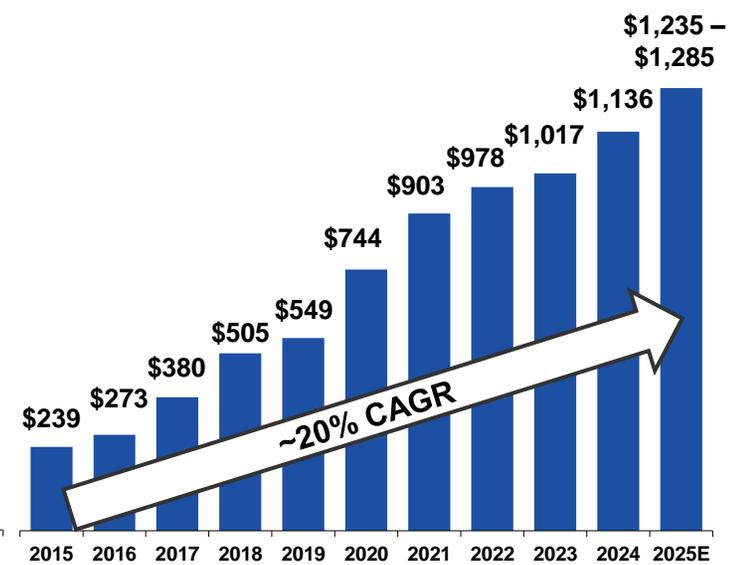

Average Rig Count

Hess Bakken Net Production (MBoe/d)

HESM Adjusted EBITDA^(2,3) (\$MM)

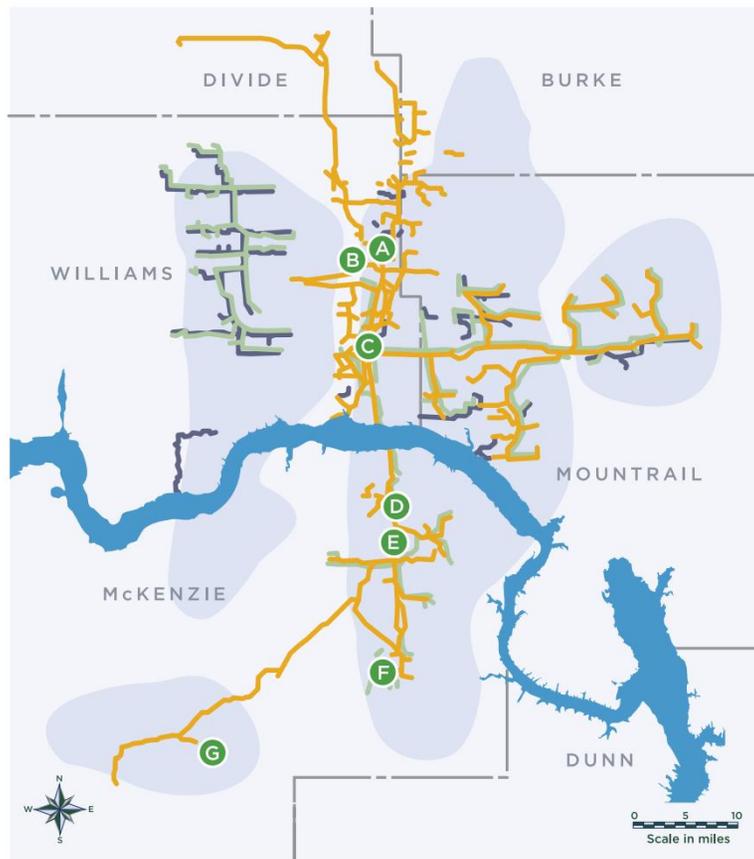

Demonstrated cash flow protection and growth

- ✓ Adjusted EBITDA growth every year since formation through two oil price downturns
- ✓ Three-year MVCs provide revenue floor while production recovers
- ✓ Contract structure captures revenue growth and return on capital invested
- ✓ Fees increased annually based on CPI escalation⁽⁴⁾

Note: Information related to Hess Corporation has been derived from its filings with the SEC and press releases and has not been independently verified. See appendix for definition of Adjusted EBITDA and a reconciliation to GAAP measures. (1) Estimated annual average rig count reflects Hess Corporation April 2025 guidance. Hess Corporation operated four Bakken rigs as of March 31, 2025. (2) As adjusted for Hess Midstream Operations LP's acquisition of Hess Infrastructure Partners in connection with the consummation of our restructuring transaction in December 2019. (3) 2025 Adjusted EBITDA is Hess Midstream guidance, as provided in April 2025. (4) Average rate for period 2021-2023 on a 2023 inflation adjusted basis; CPI escalation is capped at 3% annually.

Current Portfolio of Operations

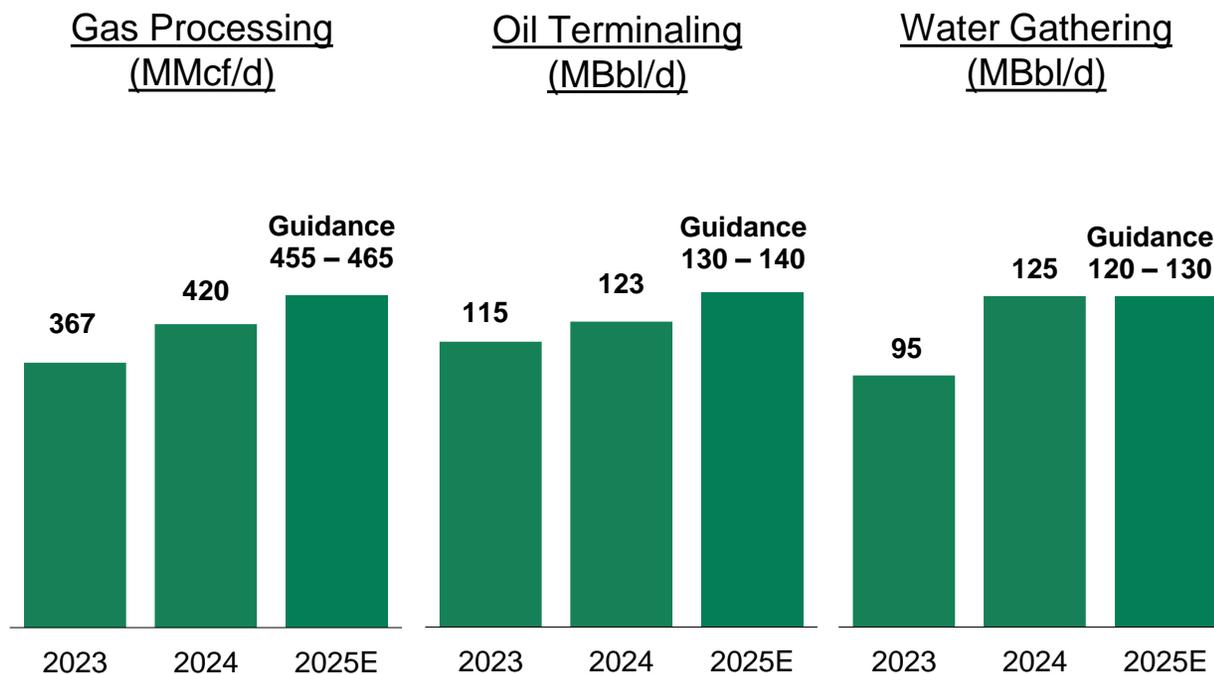

Strategically Located Infrastructure Supporting Volume Growth

- A** Tioga Gas Plant
 - B** Tioga Rail Terminal
 - C** Ramberg Terminal Facility
 - D** Hawkeye Gas Facility
 - E** Hawkeye Oil Facility
 - F** Johnson's Corner Header System
 - G** Little Missouri 4 Gas Plant
- Hess Operated Acreage
 - County and State Borders
 - Crude Oil Gathering Pipelines
 - Natural Gas Gathering Pipelines
 - Water Gathering Pipelines

Note: The Little Missouri 4 Gas Plant is operated by Targa Resources. Not pictured on the map are the underground propane storage cavern and rail and truck loading and unloading facility that are operated by Hess Midstream and are located in Mentor, Minnesota.

- Gas, oil and water infrastructure strategically located to service Hess and Third Parties
- Continued volume growth supported by Hess activity at 4 rigs and increased gas capture with goal of zero routine flaring by end of 2025

Integrated Gas Processing and Gathering

Hess
Midstream

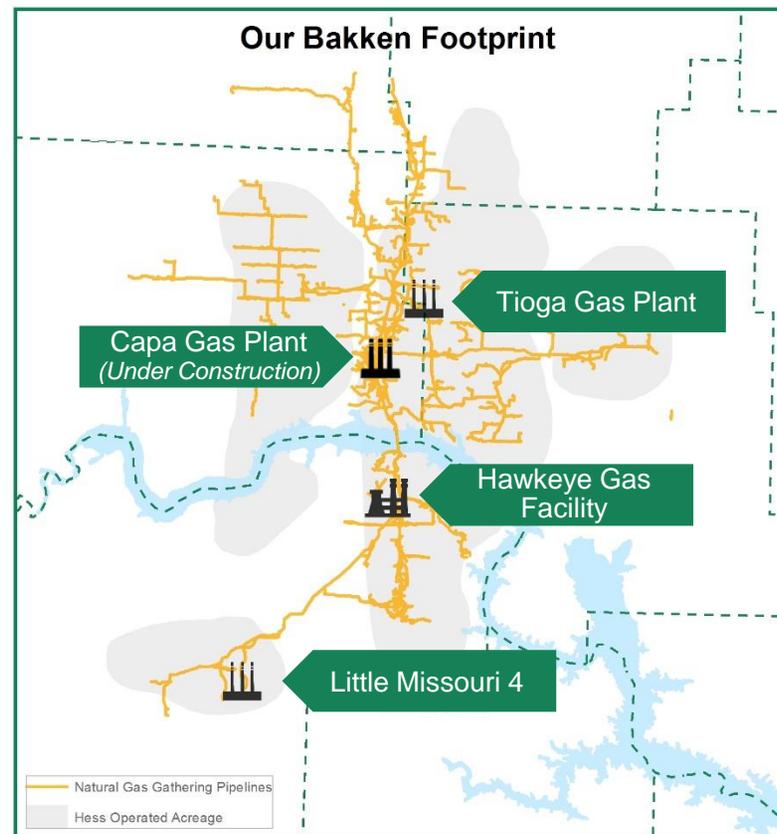

Offers Processing and Export Optionality to Hess and Third Parties

~500 MMcf/d of Gas Processing Capacity

- 500 MMcf/d processing capacity, including 400 MMcf/d at the Tioga Gas Plant and 100 MMcf/d (net) at Little Missouri 4 plant
- 60 MBbl/d of NGL fractionation (incl. ethane) capacity interconnected to pipe and Rail Terminal export
- ✓ *Single gas processing tariff across gas plant portfolio*

~675 MMcf/d of Gas Gathering Pipeline Capacity

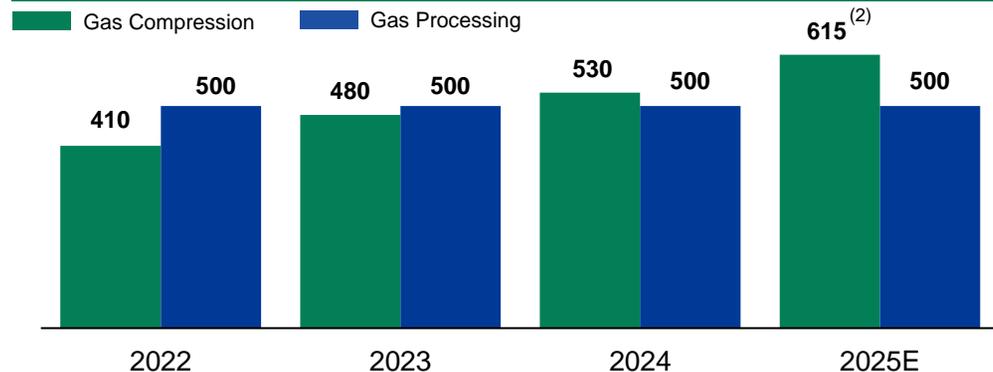

- ~1,415 miles of natural gas and NGL gathering pipelines
- ~615⁽¹⁾ MMcf/d of compression capacity, increasing gas capture

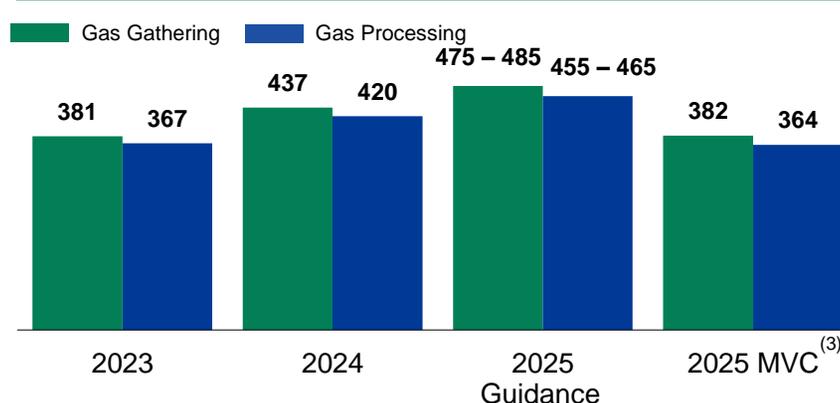

Incremental Gas Processing Capacity

Expected growth in gas volumes supports incremental gas processing capacity of ~125 MMcf/d, expected to be online in 2027. Construction and fabrication to commence in 2025.

Gas Compression and Processing Capacity (MMcf/d)

Gas Gathering and Gas Processing (MMcf/d)

Guidance as of April 2025.

(1) 2025 estimated compression capacity. (2) Construction to be completed in 2025 of two new compressor stations which are expected to initially provide, in aggregate, an additional 85 MMcf/d of compression capacity when brought online. (3) Please see slide 6 of this presentation for table of Minimum Volume Commitments (MVC).

Integrated Crude Oil Terminating and Gathering

Offers Terminating and Export Optionality to Hess and Third Parties

~505 MBbl/d of Crude Oil Terminating Capacity

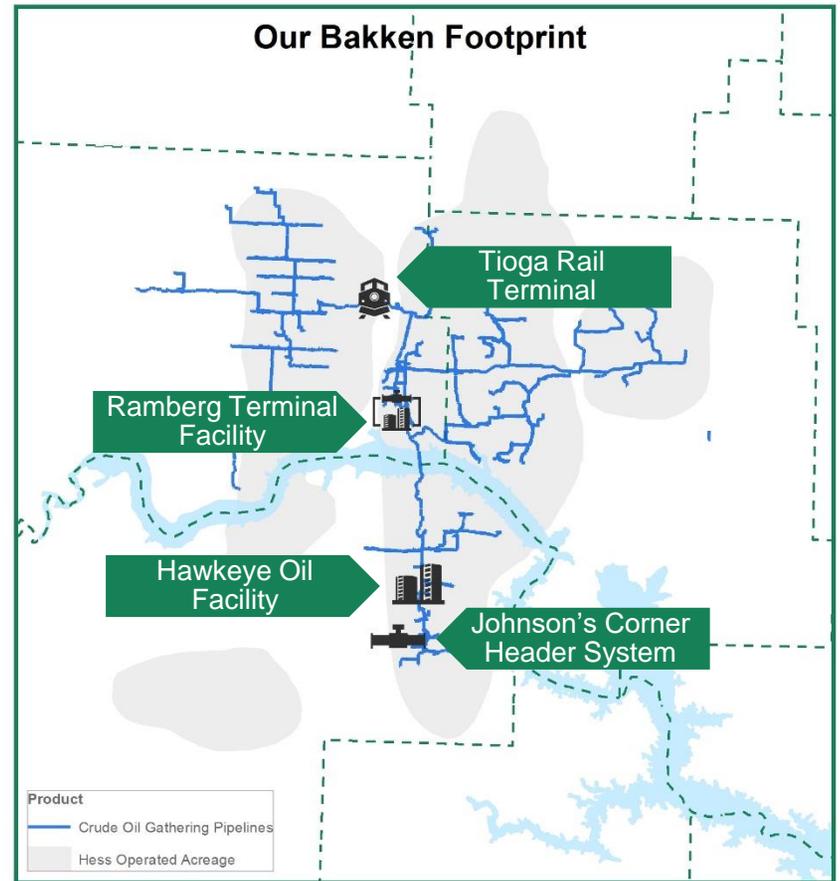

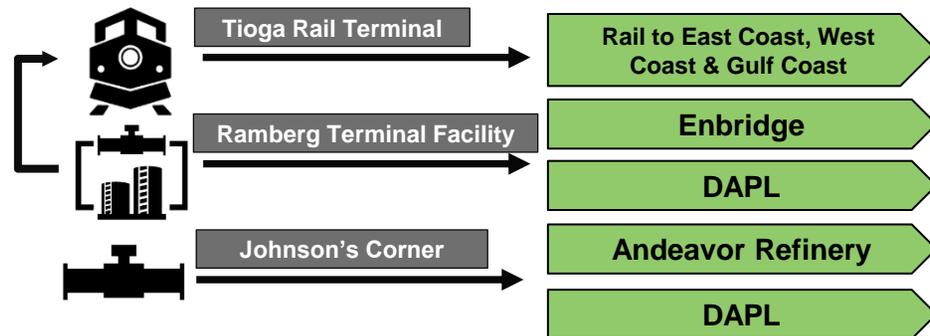

- ~285 MBbl/d Ramberg Terminal Facility (RTF) export capacity
- ~100 MBbl/d Johnson’s Corner Header System export capacity
- ~120 MBbl/d Other DAPL Connections⁽¹⁾ export capacity
- Export optionality north/south of the Missouri River—interstate pipelines: Enbridge, DAPL, and Tioga Rail Terminal (TRT)
- TRT with connectivity to TGP, RTF and gathering systems; dual loop track with loading capacity of 140 MBbl/d
- 550 crude oil rail cars built to the latest safety standards
- ✓ *Single terminaling tariff independent of delivery location*
- ✓ *Cost of Service terminaling tariff through 2033*

~290 MBbl/d of Crude Oil Gathering Capacity

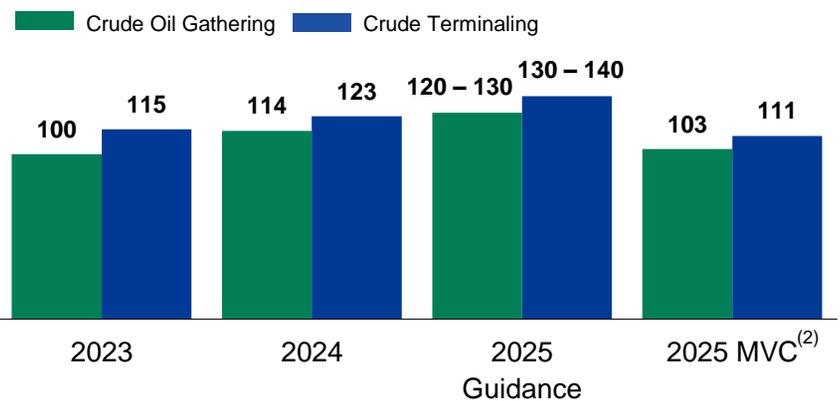

- ~590 miles of crude oil gathering pipelines
- Crude oil truck unloading north and south of the Missouri River

System Optionality Focus

Integrated system providing crude export optionality through multiple pipelines and rail

Crude Oil Gathering and Terminating (MBbl/d)

Guidance as of April 2025.

(1) Represents 2 additional DAPL connections established in 2023 north of the Missouri River. (2) Please see slide 6 of this presentation for table of Minimum Volume Commitments (MVC).

Water Services Assets

Offers Integrated Water Handling Services to Hess and Third Parties

Extensive Gathering Footprint North of the River

- Improved safety and environmental exposure, operational efficiencies, and cost savings through gathering versus trucking
- Infrastructure reliability and quality driving future growth demand
- Pipeline gathering, produced water disposal, and trucking provide integrated service offering
- ✓ *Cost of Service gathering tariff through 2033*
- ✓ *14-year contract⁽¹⁾ and unilateral 10-year renewal right*

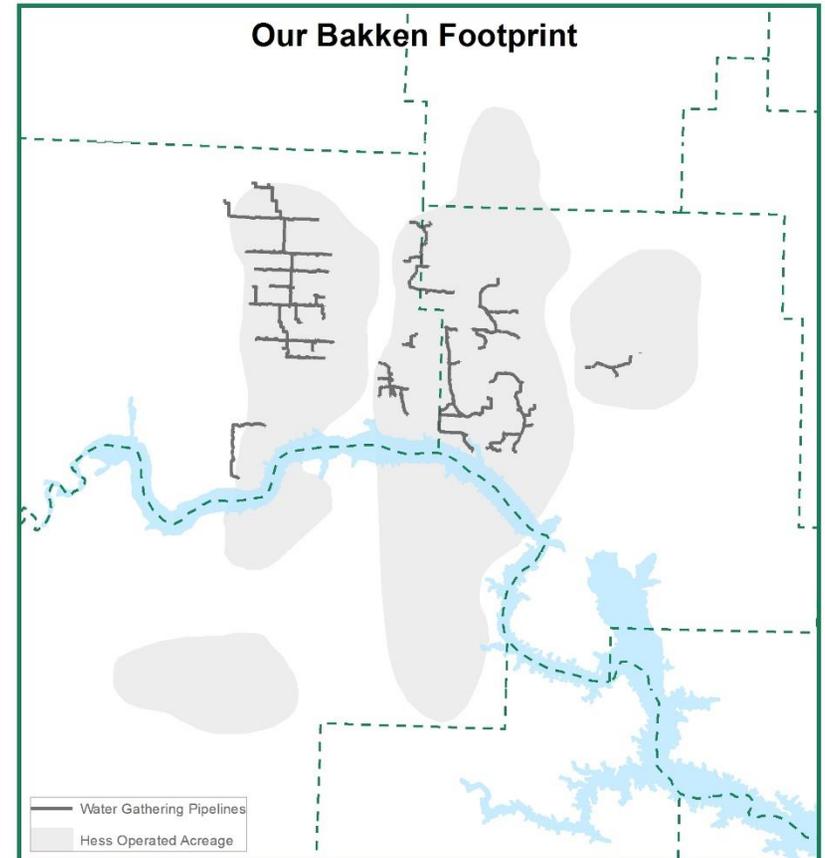

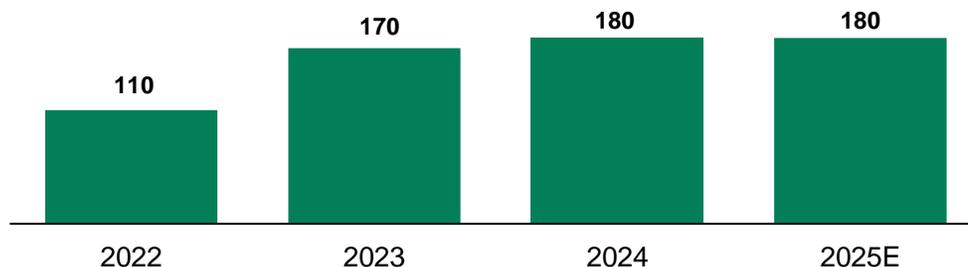

~330 Miles of Water Gathering Pipelines

- Positioned to support capture of incremental volume growth
- Ability to transport produced water to disposal facilities

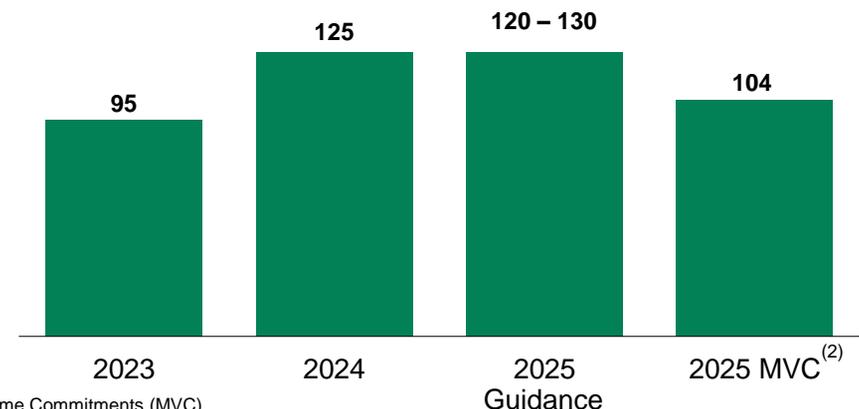

Complementary Business Line

System expansion has driven growth by reducing produced water trucking. Provides full midstream services to Hess and third parties.

Operated Salt Water Disposal Capacity (MBbl/d)

Water Gathering (MBbl/d)

Guidance as of April 2025. (1) Contract was effective 1/1/19. (2) Please see slide 6 of this presentation for table of Minimum Volume Commitments (MVC).

Disciplined Capital Allocation

Targeted Investments to Meet Customer Demand

Stable & Focused Capital Program⁽¹⁾

Capital

2025 capital focused on:

- Ongoing capital: **Gathering well connects** to Hess and third-party customers and **maintenance**
- Project capital: Construction of **greenfield, high-pressure gathering pipeline infrastructure** and **two new compressor stations** providing an **aggregate 85 MMcf/d incremental capacity** when brought online in 2025. Commencement of construction and fabrication of **~125 MMcf/d gas processing plant** expected to be online in 2027

Area (\$MM)

Ongoing Capital:

Interconnect of Hess and Third-Party gas, oil, water volumes and maintenance \$125

Project Capital:

Gas gathering system, compression and processing capacity expansions \$175

Total Capital **~\$300**

Capital program self-funded by low risk Adjusted EBITDA generation

(1) Guidance as of April 2025.

Hess Midstream's Strengths

Stable, Growing Cash Flow Generation from Leading Business Model

Strong Balance Sheet**

Hess
Midstream

2025 Guidance

Demonstrates Continued Free Cash Flow Generation

2025 Guidance: \$1,235 MM – \$1,285 MM Adjusted EBITDA and ~\$300 MM Capex

Guidance Highlights

- ~10% increase in oil and gas volumes expected compared with 2024
- Expect ~11% increase in Adjusted EBITDA, at guidance midpoint, compared to full year 2024
- ~80% revenues protected by MVCs
- Gross Adjusted EBITDA Margin targeted to be ~75%
- Targeted 5% annual DPS growth
- Adjusted Free Cash Flow of ~\$135MM, at guidance midpoint, after funding targeted distributions
- Leverage expected to decrease to below long-term target of 3x Adjusted EBITDA by the end of 2025

Throughput volumes		2025 Guidance	2025 MVCs	Financials (\$millions)	2025 Guidance
Gas Gathering	MMcf/d	475 – 485	382	Net Income	\$715 – \$765
Crude Oil Gathering	MBbl/d	120 – 130	103	Adjusted EBITDA	\$1,235 – \$1,285
Gas Processing	MMcf/d	455 – 465	364	Capital Expenditures	~\$300
Crude Terminaling	MBbl/d	130 – 140	111	Adjusted Free Cash Flow	\$735 – \$785
Water Gathering	MBbl/d	120 – 130	104	AFCF After Distributions	~\$135

Note: See Reconciliation to GAAP Metrics for definition of Adjusted EBITDA, Adjusted FCF, Gross Adjusted EBITDA Margin, and a reconciliation to GAAP financial measures. Guidance as of April 2025.

Reconciliation to GAAP Metrics

Non-GAAP Financial Measures

In addition to our financial information presented in accordance with GAAP, management utilizes certain additional non-GAAP measures to facilitate comparisons of past performance and future periods. We previously reported the non-GAAP measure of “Adjusted EBITDA,” which we defined as reported net income (loss) before net interest expense, income tax expense, depreciation and amortization and our proportional share of depreciation of our equity affiliates, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, such as transaction costs, other income and other non-cash and non-recurring items, if applicable. As this definition varied from other definitions of Adjusted EBITDA, we determined it was appropriate to discontinue reporting Adjusted EBITDA as previously defined. Beginning with the second quarter of 2024, and as presented here, “Adjusted EBITDA” is defined as reported net income (loss) before net interest expense, income tax expense (benefit), and depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, such as transaction costs, other income and other non-cash and non-recurring items, if applicable. Prior period calculations of Adjusted EBITDA have been recast to conform to the new presentation, as applicable. We define “Adjusted Free Cash Flow” as Adjusted EBITDA less net interest, excluding amortization of deferred financing costs, cash paid for federal and state income taxes, capital expenditures and ongoing contributions to equity investments. We define “Gross Adjusted EBITDA Margin” as the ratio of Adjusted EBITDA to total revenues, less pass-through revenues. We believe that investors’ understanding of our performance is enhanced by disclosing these measures as they may assist in assessing our operating performance as compared to other publicly traded companies in the midstream energy industry, without regard to historical cost basis or, in the case of Adjusted EBITDA, financing methods, and assessing the ability of our assets to generate sufficient cash flow to make distributions to our shareholders. These measures are not, and should not be viewed as, a substitute for GAAP net income or cash flow from operating activities and should not be considered in isolation. Reconciliations of Adjusted EBITDA, Adjusted Free Cash Flow and Gross Adjusted EBITDA Margin to reported net income (GAAP), net cash provided by operating activities (GAAP) and gross margin (GAAP), are provided below. Hess Midstream is unable to project net cash provided by operating activities with a reasonable degree of accuracy because this metric includes the impact of changes in operating assets and liabilities related to the timing of cash receipts and disbursements that may not relate to the period in which the operating activities occur. Therefore, Hess Midstream is unable to provide projected net cash provided by operating activities, or the related reconciliation of projected Adjusted Free Cash Flow to projected net cash provided by operating activities without unreasonable effort. Hess Midstream is unable to project passthrough revenues with a reasonable degree of accuracy. Therefore, Hess Midstream is unable to provide a reconciliation of projected Gross Adjusted EBITDA Margin without unreasonable effort.
